Travel and Gaming Solutions

Here are some specific examples where DG3 Output Solutions' customized approach has generated positive outcomes for critical areas of our clients' businesses.

VERSIONED TRAVEL BROCHURES

DG3 Output Solutions can improve the effectiveness of **customized travel brochures**—lifting booking rates from 1% to 10% on average. We can create versioned material specific to a client's primary and secondary interest. This type of one-to-one marketing is exceptionally powerful when trying to influence where travelers spend their vacation dollars.

LOYALTY VARIABLE DATA PRINT CAMPAIGNS

Through the use of **variable data and one-to-one marketing**, DG3 Output solutions can develop a marketing campaign designed to enhance brand loyalty by cultivating an ongoing relationship between marketer and customer. Our successful loyalty programs encourage the consumer to buy frequently, to increase the amount spent each time, and to concentrate all or most of their related purchases on that brand.

CUSTOMER RETENTION MAILINGS

Through the use of data analytics, DG3 Output solutions can assist with customer retention, a less expensive and more effective revenue generating tactic than attracting new customers. Using data mining techniques, we can capture client interest and track user behaviors, such as games played and restaurants consumers have sampled. By analyzing this data with our state-of-the-art tools and technologies, we are able to deliver targeted messages that successfully influence buying behavior.
